

MEMORANDUM

To: Members of the Board of Education

From: Daniel A. Nerad, Superintendent

Subject: Newly Created Councils to the Superintendent as identified through the Reorganization Plan

Date: October 21, 2010

APPENDIX MMM-4-28
October 25, 2010

The recent administrative reorganization plan identified the following:

New processes to allow for stakeholder engagement and input to improve department collaboration and cooperation.

To this end, the plan calls for the creation of a series of new councils including a leadership council, teacher council, parent council, and support staff council.

To date, the Leadership, Teacher, and Parent Councils have been established. Yet to be finalized is the Support Staff Council. Relative to the need for stakeholder input, on October 14, the first meetings for the Parent and Teacher Councils were held. We have also held a few Leadership Council meetings.

The Parent and Teacher Councils have representatives from each of our schools. The first meeting for each group focused on providing an update on key district initiatives and receiving input on future meeting topics. The Parent and Teacher Council will meet monthly.

I will briefly update the Board regarding these Councils during the Superintendent's Report on October 25, 2010.
