RE: Request BOE Approval to Purchase iPads for All Schools

1. **Project Title:** Stage 1 iPad Installation
2. **Project Description:** Funds were allocated to each school to purchase instructional technology.
3. **Analysis:** As part of the Technology Acquisition Plan that was approved by the Board in December 2011 school principals and staff members requested Apple iPads be purchased for their schools. This is the first stage of the purchase of iPads. The Stage 1 iPad installation will give us the opportunity to work through the deployment process. In addition, it will provide us with valuable feedback on initial use of the iPads from a small group of staff and students. The District will purchase 586 iPads, 15 MacBook Pro Notebook Computers (for charging carts), and 15 iPad Charging Carts.

This project uses district CY Pres funds to purchase the technology as outlined in the tech acquisition plan presented to the Board.
